

### Testimonial

Name: Loi Chai Seng

Date: 21 November 2018

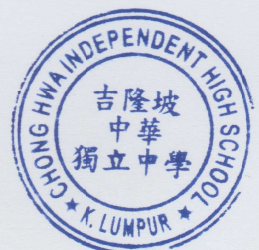

Identity Card No. : 990923-14-6469

Loi Chai Seng was born in a decent family, although his parents dropped out of school when they were 13 years old, yet they attach great importance to education. With great pleasure I would like to give my full support to Loi Chai Seng, one of the finest Senior Three graduates from Chong Hwa Independent High School Kuala Lumpur, in his application for scholarship. Loi Chai Seng impresses his teachers as a sanguine, industrious, helpful and responsible student. He has great enthusiasm for learning. When faced with learning difficulties, he always takes the initiative to seek help from his teachers and classmates. Besides that, he always gives a helping hand to his classmates when they are in need.

Academically, Loi Chai Seng has always been a high achiever. This can be attributed to his enthusiasm and eagerness to learn, coupled with his study skills and time management skills. In SPM Examinations 2016(Malaysian O-Levels), he brilliantly scored 7A's and 3B's. He obtained As in Chinese Language, English Language, Mathematics, Additional Mathematics, Biology, Chemistry and Physics. He continued to show excellent academic performance in SUEC 2017 in which he scored 7A's and 1B's, including A1 in Advanced Mathematics (I), Biology, Physics and English Language. In the following year, he scored 7.5 in IELTS 2018, reflecting his proficiency in the language.

Apart from that, Loi Chai Seng has a logical, critical and keen mind. This can be shown when he achieved three consecutive Distinctions in Australian Mathematics Competition Sponsored By The Commonwealth Bank in the years 2014, 2015 and 2016 respectively. Moreover, he has achieved 1st runner-up in Taekwondo Interschool Competition Kuala Lumpur (Kejohanan Taekwondo WTF Sekolah-Sekolah Wilayah Persekutuan Kuala Lumpur) in the years 2015 and 2016 respectively. Furthermore, he also accomplished the Honorable Mention in 3rd Beaver Computational Thinking Competition Malaysia in 2017, and Distinction in Malaysian National Chemistry Quiz (K3M) in 2016.

In regard to his co-curricular activities, Loi Chai Seng had been a committee in the Taekwondo Society for 5 years, including Vice Chairman in 2014, Chairman in 2016 and Discipline Group Leader in 2017. He is able to take responsibilities and this helps to foster his sense of teamwork and leadership skills as well as communication skills. These splendid qualities have made him well-equipped for his future success in academic studies and working. Besides that, he participated actively in camps and events as a committee in different aspects, including The Event Venue Leader of the Organizing Committee for

Teachers' Day Celebration 2017, Committee in Mathematical Societies Committee Training Camp 2017, the Cooperator in The 12th Chong Hwa Leadership Camp 2016, Activity Group in The 1st Chong Hwa Sport Clubs Camp: Leisure Sport 2016, Committee Member in the 5th Martial Arts Activity Camp 2015 during his secondary school. He obtained chances to lead students and teammates in these activities, and this had further elevated his soft skills.

In addition, Loi Chai Seng is a loving and caring person. He is willing to serve and shows social concerns. This can be examined when he participated in numerous charity run and events, including World Kidney Day Family Walkathon 2016, A.B.L.E charity run 2016, International humanitarian Run 2016, World Vision Malaysia Famine DIY Camp 2016, fundraising for Nepal earthquake victims, Great Eastern Colour My Heart Run 2015 and Jog For Hope 2014.

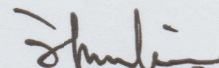

As Loi Chai Seng is such a promising candidate who treasures every learning opportunity and delivers excellent results, I therefore consider him to be very worthy of a scholarship to be granted by your esteemed organisation.

Thank you for your kind consideration.

Yours faithfully,

Chia Tiong Lin  
Form Teacher  
Senior Middle 3 Science Xiao 2017
